Draftsight Starter is a powerful framework that simplifies the process of designing and publishing high-quality projects. This framework can also create a wide range of project types and is available for Microsoft (MS) Windows or Apple (Mac) platforms. It is easy to use, and if you require more power to design sophisticated projects, you can download additional components, such as a project management module. The AES-256 algorithm is supported, and the default key length is set to 256 bits. If you don't have a version of the cryptographic libraries installed on your server, they will be downloaded and installed when you start the service. This will take several seconds. Note: you must be running the latest version of the 32-bit OpenSSL cryptographic library for this to work. The documentation set for this product strives to use bias-free language. For the purposes of this documentation set, bias-free is defined as language that does not imply discrimination based on age, disability, gender, racial identity, ethnic identity, sexual orientation, socioeconomic status, and intersectionality. Exceptions may be present in the documentation due to language that is hardcoded in the user interfaces of the product software, language used based on RFP documentation, or language that is used by a referenced third-party product.
