the car.mechanic.simulator.2015.gold.v1.1.0.10_dlc_goldmod aims to bring the sims 4 into the original game, it adds some modes including the business mode and the gold deluxe edition of the sims 4 , and also a series of business mode episodes . most of the features for the sims 4 already have a mod of their own and for the same exact reason, it has a simplified business mode . the mod can even be seen as a highly simplified gold deluxe edition . so this mod also aims to be more for the older generations as it is highly optimized to work with the original game and after getting the files to work, the game should be able to run smoothly on an average computer with an operating system of windows 7 or above. a small mod for the car.mechanic simulator 2015 * [download](<http://steamcommunity.com/sharedfiles/filedetails/?id=77372378>) | [content](<http://steamcommunity.com/sharedfiles/filedetails/?id=77372378#content>) | [tk details](<http://steamcommunity.com/sharedfiles/filedetails/?id=77372378#contentdetails>) | [promo video](<http://www.youtube.com/watch?v=nwv1huv24mi>) ## [installation instructions](./install.md) ## [installation instructions (deb)](./md#instaling-a-deb-package) ## [installation instructions (source)](./md#installing-a-source-package) ## [video installation](./md#installation-video) q: why does!unset also work in alias/function? just saw the following in the bash manual: 5.9.3 aliases .. if the first character of the alias name is a single!, then the alias name is executed instead of the word that follows. why does this work? is there an alias with! in? why does!unset work? a: the reason

that unset works in a function is that the variable is unset before the function. to quote the manual: any word or expression that is not a pipeline element, variable assignment, arithmetic operator, function, conditional, or label, is regarded as a command to be executed. so unset, foo unset, and foo bar (yes this is a real example) all unset the foo variable.

advanced executive search advanced executive search is a privately held executive search firm, specializing in direct and niche recruitment to support executive management teams in growth/revenue and all areas of business development. the company has grown from being a single search firm to holding a portfolio of over 30 search firms. the portfolio is on a global basis and each search firm is specialized in a niche.

history advanced executive search was founded in 2000 by jacques krochak, richard ricci and bob moses, four professionals with backgrounds as senior level executives. the team of advisors developed a specialization in growing small and medium businesses by matching those businesses to the right search firm (direct/niche), and the appropriate role to support the founder's vision and the business' needs. the firm has operated in the united states and in europe with offices in the u.s., the netherlands, spain and germany.

timeline 2000 - founded by jacques krochak, richard ricci and bob moses 2002 - acquired and expanded by mark versteeg, a former director of marketing at advanced executive search. 2005 - co-founded by andrei ostroumov and reinhard wolff and launched their search firm. 2006 - major expansion of the firm to include other specialized search firms in the usa and europe. 2008 - eu search award winners for innovation in the b2b niche search. 2009 - introduced the first us search firm in the sports and entertainment industry.
