Epson Adjustment Wizard 2 Stylus Pro 7880

hi sir, I have an Epson stylus pro 7880 machine and it shows me control panel service call 00010... (Posted by elnemary2014 7 years ago). Epson 7800 ... - Service calls and error codes. I have 3 monitors that I can't find. They were bought from different sources and I don't know which one was installed correctly. One of them was installed on an old home PC, the other was bought last year for use at my workplace. My first monitor has several issues, including when it turns on after a certain amount of time of inactivity, after which it turns black and shows nothing but the EPSON logo.
